

Greenwich Ultrasonics is a state of the art ultrasonic blind and shade cleaning, sales & repair company serving the tri-state area.

Our **on-site inspection, repair and cleaning** process will gently remove dirt, dust, grime, pollen and other allergens from your expensive window treatments.

We clean and repair:

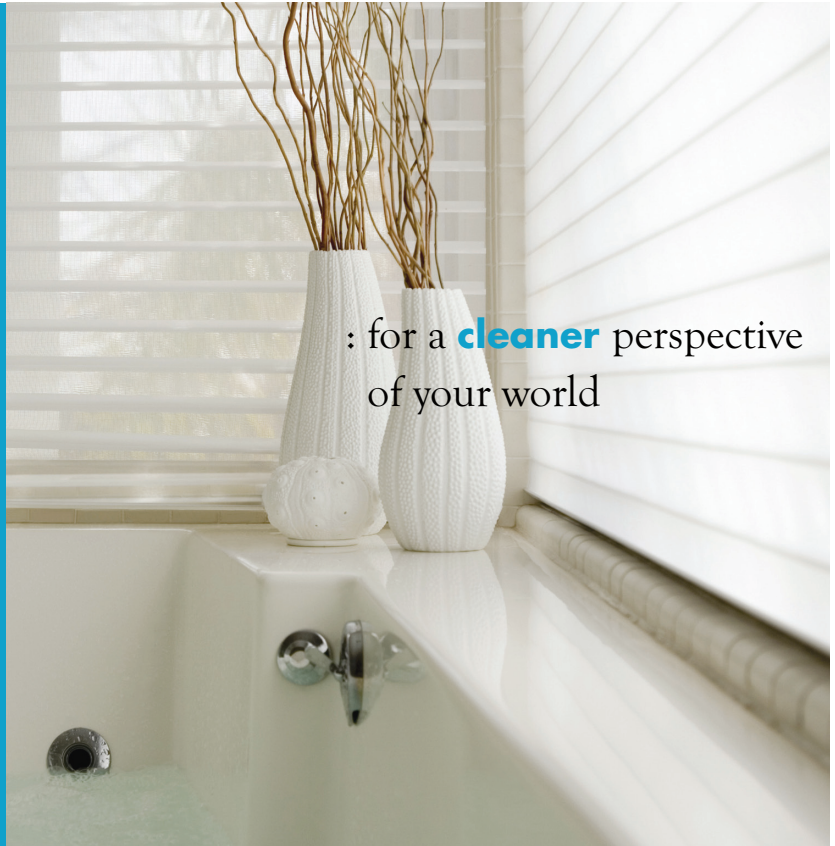

- ▶ Mini-Blinds
- ▶ Luminettes
- ▶ Solar Shades
- ▶ Silhouettes
- ▶ Pleated Shades
- ▶ Verticals
- ▶ Cellular Shades
- ▶ and more...

Residential : Now that you have purchased your costly window treatments, how do you clean and maintain them to preserve their life and appearance?

If your answer is to vacuum your solar or pleated shades and to dust your mini-blinds, you need to be speaking with us.

How do we do it?

We use on-site ultrasonic technology. The dirt, dust and grime is gently bubbled away using our special dual-chambered ultrasonic cleaning machine. We use *eco-friendly, biodegradable cleaning solutions* combined with rust inhibitors and drying agents, which leave your blinds and shades gleaming like new. If needed, we also perform expert blind and shade repairs.

: for a **cleaner** perspective
of your world

Commercial : You often spend 8, 10 or even 12 hours a day in a closed office environment. You need to be sure your blinds and shades not only look clean, but more importantly are clean.

Besides the obvious presentation benefits, cleaning your blinds removes harmful bacteria, allergens and numerous other particles that can contribute to health problems.

This specialized cleaning service requires more than occasional custodial attention. Let us put together a quarterly or semi-annual maintenance program designed to meet your specific needs.

All on-site services can be conducted after hours or on weekends to ensure minimal impact on the daily schedules of your employees and customers.

*Your On-Site Blind Cleaning,
Sales & Repair Specialist*

Sales : We offer a wide variety of window treatment selections with numerous pricing tiers designed to meet the parameters of any budget. We are a registered Hunter Douglas and Graber dealer and installer.

Residential customers will benefit from our on-site sales process as sample books can be viewed in individual rooms to match paint, carpet and furniture colors. All treatments selected are then professionally measured and installed and carry manufacturer life time warranties.

Commercial accounts can select product options that are competitively priced through our contract pricing relationships with Hunter Douglas, Bali and Graber. All sales and installations enjoy life time warranties and deep discounts on ongoing cleaning and maintenance packages.

FAQs

Can I really immerse my window

treatments in water? Yes, ultrasonic cleaning is approved by Hunter Douglas, Graber, Bali and numerous other leading blind and shade manufacturers.

How much does this service cost? The prices range from \$10-\$20 a linear foot (measures the base of the treatment) depending on the blind or shade material and type.

Is there a minimum charge or commitment for an on-site visit? Yes, we do have a 5 blind minimum for on-site visits, but we will often arrange to pick up and drop off smaller jobs on a same day or next day basis.
